

## 2021 SPECIALTY DRUG LIST | CALIFORNIA

# Specialty drugs on the Kaiser Permanente formulary

Specialty drugs are high-cost prescription medications, and in most cases, are used to treat complex chronic conditions such as rheumatoid arthritis, multiple sclerosis, or cancer. Below is a list of the specialty drugs on our formulary, which means they're covered by Kaiser Permanente plans when prescribed by a member's physician as part of a course of treatment.<sup>1</sup>

Most specialty drugs aren't available through mail order because they require special handling such as temperature or storage requirements. A majority of specialty drugs may be limited to a 30-day supply and cannot be mailed.

## The following specialty drugs are on our formulary:<sup>2</sup>

### Anti-infective agents

Ambisome	Infergen	Sovaldi
Baraclude	Invanz	Synagis
Caspofungin	Norditropin	Synercid
Cayston	Pegasys	Valcyte
Cubicin	Pegasys ProClick	Virazole

### For more information

To see which prescription drugs are on our formulary, go to [kp.org/formulary](https://kp.org/formulary). If you have questions about the specialty drug tier, contact your Kaiser Permanente sales executive or account manager. Members who have questions about their benefits can refer to their *Evidence of Coverage*. Or they can call our Member Service Contact Center at **800-464-4000** (TTY **711**), 24 hours a day, 7 days a week (except holidays).
