

Set your sights on total health for your employees

VISION ESSENTIALS BY KAISER PERMANENTE

At Vision Essentials by Kaiser Permanente, we see eye care differently. Healthy vision is more than just glasses and contact lenses. When it comes to eye health, your employees are covered by Vision Essentials, which offers:

- Ophthalmology
- Optometry
- Optical (includes a wide selection of eyewear)

DID YOU KNOW?

Blindness is the #2 health concern in the United States next to cancer.*

1 in 4 employees over age 45 is taking frequent breaks at work because their eyes hurt or feel tired.†

Every employee with eyestrain costs an average of \$2,100 in lost productivity.‡

THE KAISER PERMANENTE DIFFERENCE

We provide convenient total eye care—ophthalmology, optometry, and optical eye clinics at select locations in Maryland, Virginia, and Washington, DC.

We have a team of 150 integrated ophthalmologists, optometrists, and opticians in our Vision Essentials departments.

Over 23,000 members were screened for comprehensive eye and chronic health conditions in routine eye exams in 2017.§

All eye care services are conveniently located in several of our medical centers, making it easier for your employees to take care of all of their health needs, including vision, in one stop. And because regular eye exams detect not only vision problems, but also certain health conditions, your employees can stay on top of their total health with Vision Essentials.

For locations and more information, visit kp.org/2020.
