Choose BETTER

You put a lot into making your business a success—which means you keep a close eye on the bottom line. And since your employees play a role in that success, you want them to be healthy and productive. Together, we can tailor a solution that meets the needs of your business and your workers.

Partner with us, and you'll get health care that's supported by the experience and innovation that can help you strengthen your business—now and for the future. And each of your employees will get personalized care from top doctors,⁴ online health improvement resources, and programs to help them manage chronic conditions.

With our help, you can have lower overall costs; healthier, more productive employees; and improved performance for your company.

Have questions?

Call us at **866-523-0924**, or contact your agent or broker.

Why efficient health care matters

To successfully manage your total costs—and improve business performance—you need a partner that addresses the health of your employees early, consistently, and effectively, **before your costs escalate**. As you’re looking at health care providers, consider the following questions:

When your employees visit different doctors, can those doctors’ care teams see if your employees are up to date on preventive care such as flu shots, diabetes tests, or mammograms?

- ▶ Doctors in different offices don’t automatically have access to a patient’s medical history, lab test results, and prescription list. They miss opportunities to get ahead of an illness, which increases employee sick days and your total costs.
- ▶ It’s difficult to avoid gaps in care if all the doctors your employees see aren’t working together. This increases the likelihood of unchecked diseases, which raises your medical costs and adds to employee time away from work.

Do your other health care options reward quality and minimize waste?

- ▶ The traditional fee-for-service system rewards more care—more visits, more tests, and more procedures—instead of the right care. You and your employees end up paying for this in the form of higher medical costs.

Do your other health care options provide your employees with 24/7 medical advice by phone from skilled nurses, video visits with emergency medicine doctors, and video visits with their personal physician, all at no additional cost share?⁵

- ▶ Kaiser Permanente members have 24/7 phone access to skilled nurses for medical advice. Members can also consult directly with a highly trained emergency medicine physician or their personal physician using video consultation for certain conditions.⁵ There is no additional cost share for these services. Read more on page 13.

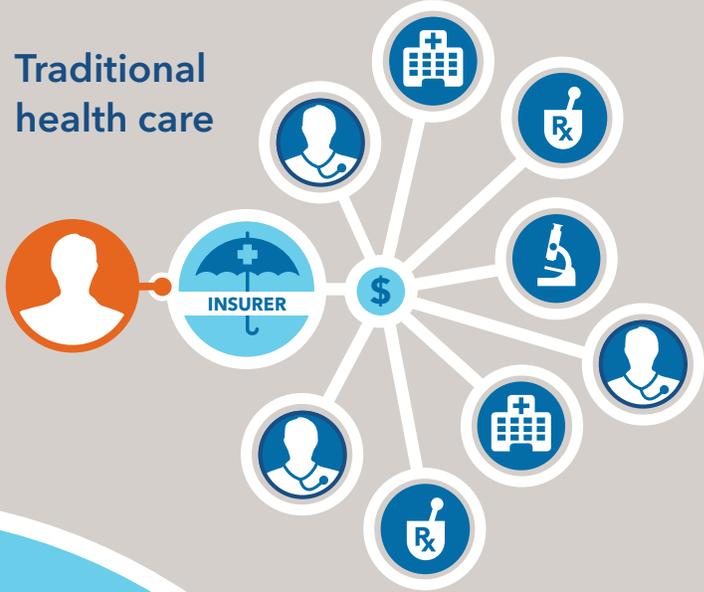

Delivering value others can't match

With Kaiser Permanente, you have a health care partner that addresses the health of your employees early, consistently, and effectively—before your costs escalate. Take a look at how our integrated care delivery model and focus on prevention offer you a better alternative to traditional fee-for-service care. As you'll see, there's no comparison.

The reference to "partner" in this brochure does not imply a legal partnership or affiliation with small group employers doing business with Kaiser Permanente.

Truly integrated care

Traditional health care

Kaiser Permanente

*Electronic medical record

Your partner for better health

Making smart decisions about your and your employees' health may be easier than you think, whether you're looking for a new plan or choosing health coverage for the first time. Take a look at all you get with your membership, and you'll see how Kaiser Permanente can help you live a healthier life.

The power to choose

It's simple to make the right choices when you've got great doctors, convenient facilities, and a care team that puts you front and center. With Kaiser Permanente, you have the best options for you and your employees.

- ▶ We've carefully selected our doctors so your employees can make the right choice for their families.
- ▶ Your employees can select and change their physicians at any time.
- ▶ At our Kaiser Permanente medical offices, care happens all under one roof to make it more convenient for you and your employees. And when your employees get care with fewer delays, they get better faster.
- ▶ Your employees have the convenience of 24/7 medical advice by phone from skilled nurses, video visits with emergency medicine doctors, and video visits with their personal physician, all at no additional cost share.⁵

Excellent care

Our electronic health record system informs your care team at Kaiser Permanente medical centers and enables

their teamwork.⁶ This way you and your employees are treated as people, not symptoms.

- ▶ Supported by our secure health record system, doctors, nurses, and specialists are better prepared to deliver the right care at the right time. This teamwork is part of our focus on prevention, and our commitment to providing you and your employees with personalized care—even if you go to different Kaiser Permanente locations in your area.⁶

Convenient classes, resources, and more

Empower your employees to take their health beyond checkups with a partner that provides the inspiration and information they need to live life to the fullest.

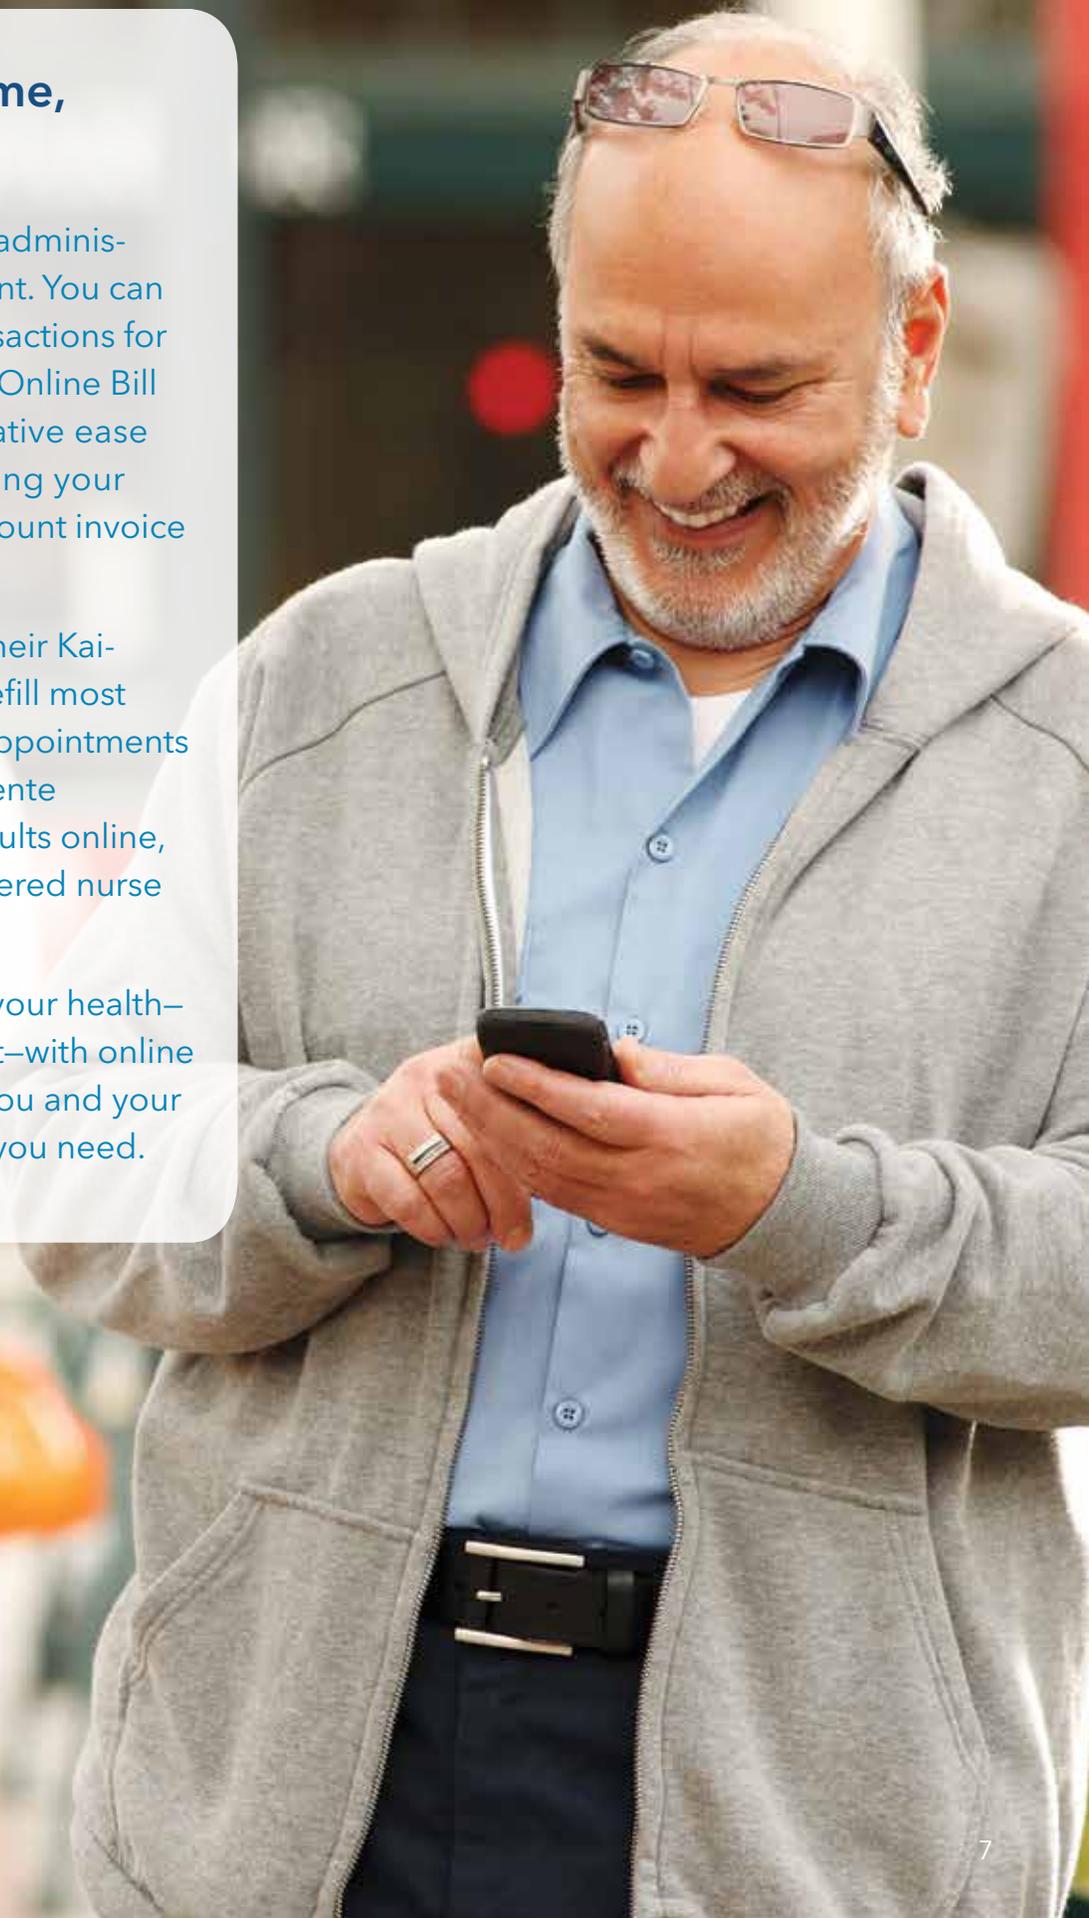

- ▶ Fit wellness into your schedule, no matter how busy the day is. With the many health classes offered, there's something for everyone. Yoga classes, eating well, baby care, specific health conditions, and much more. Classes vary by location, and some may require a fee.

Online access anytime, anywhere

Streamline your health care administration with Online Enrollment. You can process basic eligibility transactions for new and existing members. Online Bill Pay offers further administrative ease and convenience in managing your group's health care plan account invoice and payments online.

Your employees can email their Kaiser Permanente physician, refill most prescriptions online, make appointments online with a Kaiser Permanente physician, view most test results online, and get advice from a registered nurse 24 hours a day.

Stay better informed about your health—and better able to manage it—with online and mobile tools that help you and your employees get the support you need.

A focus on prevention

Preventive screenings help keep you and your employees healthy by providing an early alert for many health conditions. That way, they can be treated before they become serious. Under health care reform, many screenings are available at no charge when appropriate guidelines are met. Here are some examples of preventive care services:

- ▶ Routine preventive physical exams
- ▶ Immunizations
- ▶ Annual flu shots
- ▶ Osteoporosis screenings (for women 65 or older and those at higher risk)
- ▶ Tuberculosis tests
- ▶ Autism screenings
- ▶ Vision screening (for children)
- ▶ Mammograms (for women 40 and older)
- ▶ Contraceptive care and counseling
- ▶ Breastfeeding support

For a complete list of our preventive care services, visit kp.org/prevention.

Health plan benefit highlights

It's easy to find the right plan

Plans fit into four main categories of coverage, known as "metal tiers." Each tier has a different actuarial value—the percentage that the health plan will pay for covered essential health benefits, based on the claims of a standard population:⁷

- ▶ Platinum—90% actuarial value
- ▶ Gold—80% actuarial value
- ▶ Silver—70% actuarial value
- ▶ Bronze—60% actuarial value

These four categories offer different levels of copayments, coinsurance, and deductibles for essential health benefits. For example, bronze plans generally have lower premiums with higher out-of-pocket costs, while other metal tier plans generally have higher premiums and lower out-of-pocket costs.

Medical network options

Kaiser Permanente Signature™ network

When you choose the Signature provider network, your employees receive quality care from Mid-Atlantic Permanente Medical Group (Permanente) physicians, a group of almost 1,500 physicians⁸ who practice in our multispecialty medical centers located in Maryland, Washington, DC, and Virginia. In some parts of the service area, members also have access to affiliated plan physicians who practice in the community.

All Kaiser Permanente medical centers offer primary care and feature on-site pharmacies. Most medical centers also offer:

- ▶ Pediatrics
- ▶ Obstetrics and gynecology
- ▶ Specialty care
- ▶ Radiology
- ▶ Laboratory

Some centers offer:

- ▶ Ambulatory surgery
- ▶ 24/7 Urgent Care
- ▶ Behavioral health services
- ▶ Vision care and optical services
- ▶ And other services

Because of our unique coordinated care delivery, members can often receive several services in one visit, avoiding repeat visits and extra time away from work. When your employees receive care, tests, and screenings in our medical centers, they can use [kp.org](https://www.kp.org) to email their Kaiser Permanente doctor's office, check most lab results, schedule and cancel certain appointments, order most prescription refills for mail delivery or pickup, and much more. There's even an app that members can use on their smartphones.

With the Signature network, members have access to contracted hospitals located throughout the service area.

At certain preferred hospitals, Permanente physicians are on call 24 hours a day, 7 days a week—one of the distinct advantages of coordinated care.

Kaiser Permanente SelectSM network

Available with certain plans purchased directly through Kaiser Permanente, the Select network adds access to community physicians in private practice, allowing members to choose from thousands of physicians and additional contracted hospitals. However, members can only use the features of **kp.org** when care is received at a Kaiser Permanente medical center.

Pharmacy networks

Kaiser Permanente pharmacies

Members can fill prescriptions at pharmacies located in all Kaiser Permanente medical centers or through our mail-order service. Permanente physicians can send prescriptions electronically to the medical center pharmacies, where members can pick up their medicine right after their doctor's visit. Members can also choose to refill most prescriptions through the Mail Order Pharmacy by phone or online and have their medicine mailed to their home for no additional charge. Using Kaiser Permanente pharmacies is usually the most economical choice.

Contracted pharmacy network⁹

Members also have the choice of filling their prescriptions at network pharmacies in the community. These include well-known chains such as Giant, Rite Aid, Safeway, Target, Walmart, and Kmart, and smaller, independent pharmacies.

HMO plans

HMO plans

HMO plans with fixed copayments offer your employees a balance of affordability and predictability. Members pay set cost-sharing amounts for most covered services; there are no medical deductibles and virtually no claims to file. It's easy to predict out-of-pocket costs. Preventive care services, such as routine physicals, well-child visits, and certain screening tests, are provided for \$0 copay.¹⁰

Deductible HMO plans

Deductible HMO plans allow you to offer the same benefits as traditional HMO plans with fixed copayments, but usually at a lower premium.

In most cases, you can choose among deductible HMO plans with various levels of copayments, coinsurance, deductibles, and out-of-pocket maximum limits. Because most preventive services are offered at no additional cost share and are not subject to the deductible, there's no need to be concerned that deductibles will stand in the way of employees seeking important preventive services. Certain other services, such as office visits and Urgent Care, are also not subject to the deductible. Deductibles, copayments, and coinsurance for most services count toward meeting the out-of-pocket maximum limit. All plans have out-of-pocket maximums, so employees have peace of mind knowing that there is a limit on the amount they are required to pay for most covered services each contract year.

For covered services that are subject to the deductible, such as outpatient surgery and hospital inpatient services, members pay allowable charges until they meet their deductible for the contract year. (The member is responsible for paying only the allowable charges, which may be less than the billed amount charged by the provider.) After the deductible is met, the member pays only the applicable coinsurance and/or copayments for covered services for the rest of the contract year.

Each covered family member has a deductible, and the whole family has a separate deductible. All appropriate charges for each family member's care are applied to the family deductible. When one family member reaches his or her individual deductible limit before the family deductible is met, that family member pays only applicable copayments and/or coinsurance for covered services for the remainder of the contract year. The other family members continue to pay full-service charges until either each remaining family member has met his or her individual deductible, or the family deductible has been met. The out-of-pocket maximum works the same way.¹¹

HMO Plus plans

HMO Plus provides limited coverage with any licensed provider, nationwide, balanced by the high-quality² care innate to Kaiser Permanente's integrated delivery system.

And Deductible HMO Plus plans allow you to offer the same benefits, but usually at a lower premium.

IN-NETWORK PROVIDERS

HMO Plus members have access to the Kaiser Permanente Signature provider networkSM. With this network, members receive quality care from our network of award-winning physicians¹² and affiliated providers. Kaiser Permanente care teams practice exclusively in our medical centers, which are conveniently located throughout the covered Maryland, Virginia, and Washington, DC, service areas.

OUT-OF-NETWORK PROVIDERS

This plan also covers up to 10 outpatient physician visits out of network, including lab and x-ray, and five pharmacy refills a year with providers outside of the Kaiser Permanente care delivery system, anywhere in the United States. Referrals are not needed to use the out-of-network benefits.

- ▶ Certain services, such as inpatient care, outpatient surgery, maternity, and prenatal care, will only be covered in-network.¹³
- ▶ Some providers may require members to pay the full cost of each visit. If so, members will need to submit a claim for reimbursement.
- ▶ Charges will not count toward meeting the out-of-pocket maximum, which is applicable only to in-network benefits.
- ▶ Providers may also bill members for the difference, if any, between billed charges and the maximum allowable charge. Charges that exceed the maximum allowable are not covered, do not satisfy the deductible, and do not accumulate to the out-of-pocket maximum.

HSA-Qualified High Deductible Health Plans

Health Savings Account (HSA)-qualified High Deductible Health Plans must meet Internal Revenue Code requirements, including a minimum deductible and maximum out-of-pocket expense limits. HSA-qualified plans have a contract-year deductible that applies to all covered health care services, including prescription

drugs. Preventive care, such as routine physicals, well-child visits, and certain screening tests, is not subject to the deductible and is available at no charge.

Members pay full-service charges until they meet their deductible for the contract year. (The member is responsible for paying only the allowable charges, which may be less than the billed amount charged by the provider.) After the deductible is met, the member pays only the applicable copayment or coinsurance for covered services for the rest of the contract year.¹⁴

Members' deductibles, copayments, and coinsurance dollars are applied to their out-of-pocket maximums for the given contract year. Once members reach their out-of-pocket maximums, Kaiser Permanente is responsible for 100 percent of allowable charges for covered services for the remainder of the contract year. Deductibles, out-of-pocket maximums, copayments, and coinsurance cost-sharing levels depend on the specific plan selected.

Note: Adult dental services are not subject to the out-of-pocket maximum. Members continue paying for adult dental services even after the out-of-pocket maximum has been met.

Deductible plans compatible with Health Savings Account

HSA-qualified High Deductible Health Plans are compatible with an HSA. HSA plans available through DC HealthLink do not have an employer contribution option, and the HSA can be funded by the employee or third parties only. When you offer these financial products, you can better control health care spending and promote employee involvement in personal health management.

HSAs allow employees to invest and save money to pay for future health care expenses. HSAs also offer tax savings for employees on qualified medical expenses. An HSA allows your employees to save on personal income taxes through tax-free contributions, investment earnings, and withdrawals for qualified medical expenses.¹⁵

Is it urgent?

Video visits are available with a Kaiser Permanente emergency medicine physician who is connected to your personal doctor and can access your medical history. Simply visit [kp.org](https://www.kp.org) or use our mobile app to schedule your video visit. You can also call the advice nurse anytime for a video appointment.

We take convenience to a new level.

See your doctor or get medical advice from the comfort of your home.

Got a health matter that needs attention?

Now you can see your doctor face-to-face—without visiting the office. You can have a video visit with your personal doctor¹³ from home, work, or on the go,⁵ not one offered by a service where the doctors don't know you. You just need to be a Kaiser Permanente member with a camera-equipped computer or mobile device.

Video visits are easy, secure, and part of your coordinated care. There's no need to take time off from work to drive across town or sit in a waiting room, and you won't have to pay a copay or deductible to get the care you need.⁵

Point-of-Service plan

Added Choice® with Deductible Point of Service (POS)

The Added Choice with Deductible Point-of-Service plan combines an in-network provider option (Option 1) with an out-of-network provider option (Option 2), all in one flexible plan. Members are not limited to one provider option. They can choose between the two provider options at any time. Benefits vary in each option, and the cost sharing for a particular service depends on the provider option and, sometimes, where the member receives care. Out-of-pocket costs are generally lowest in Option 1.

When you purchase an Added Choice with Deductible plan for your employees, you can choose among plans featuring various levels of copayments, coinsurance, deductibles, and out-of-pocket maximum limits. There is a contract-year deductible in both Options 1 and 2. (Payments made toward the deductible in Option 2 count toward satisfying the Option 1 deductible, but payments made toward the Option 1 deductible do not count toward the Option 2 deductible.) Some services are not subject to the deductible and do not have to meet this requirement.

There is a maximum amount you pay out of pocket each contract year. Once the amounts you have paid equal the out-of-pocket maximum, you pay nothing more. The deductible amounts paid, as well as copayments and coinsurance for most services, count toward meeting the out-of-pocket maximum limit. Payments made toward the out-of-pocket maximum in Option 2 count toward satisfying the Option 1 out-of-pocket maximum, but payments made toward the Option 1 out-of-pocket maximum do not count toward the Option 2 out-of-pocket maximum.

Within Option 1 and separately in Option 2, each covered family member has a deductible, and the whole family has a separate deductible that must be met. All appropriate charges for each family member's care are applied to the family deductible. Within each option, when one family member reaches his or her individual deductible limit before the family deductible is met, that family member pays only applicable copayments and/or coinsurance for covered services for the remainder of the contract year or otherwise reaches an out-of-pocket maximum. The other family members continue to pay allowable charges until either each remaining family member has met his or her individual deductible, or the family deductible has been met.

OPTION 1 (IN-NETWORK PROVIDERS)

At the heart of Option 1 are the physicians of the Mid-Atlantic Permanente Medical Group and Kaiser Permanente medical center pharmacies. When members seek care from Option 1 providers who practice in Kaiser Permanente medical centers, they experience all of the advantages of coordinated care and around-the-clock access to the time-saving features on kp.org. Certain services are subject to the deductible, but some services, such as office visits and Urgent Care, are covered at a copay whether or not the deductible has been met.

OPTION 2 (OUT-OF-NETWORK PROVIDERS)

Option 2 includes any licensed provider, pharmacy, or hospital that is not included in Option 1. When members use the out-of-network provider option, no referrals are required for specialty care (but certain services may require preauthorization). Using Option 2 providers generally results in higher out-of-pocket costs compared to Option 1, and more services are subject to the deductible and a coinsurance after the deductible is met. In addition, Option 2 providers may also bill members for the difference, if any, between actual billed charges and the maximum allowable charge. Charges that exceed the maximum allowable are not covered, do not satisfy the deductible, and do not accumulate toward the out-of-pocket maximum. Option 2 providers may require members to pay the full cost of each visit. If so, members will need to submit a claim for reimbursement. Charges for some services may not count toward meeting the out-of-pocket maximum. For more details, employees should refer to their *Evidence of Coverage*.

Dental plans

We offer dental coverage that emphasizes preventive care. Our health plans include pediatric dental benefits. Individuals are eligible for Pediatric Dental Services up to the end of the month in which the member attains age 19. For adults 19 and older, preventive dental, along with other dental services, is included in our plans.

Adult Preventive and Cosmetic Dental Plan—This Dental Plan emphasizes prevention and the early detection of dental problems to prevent costly procedures in the future. In addition, the plan offers a unique set of discounted cosmetic and other dental services, such as teeth whitening, crowns, and Invisalign. It is designed to

help your employees reach a state of good oral health without facing the high cost of treatment typical of many dental plans. This plan offers coverage for more than 250 predetermined, predictable fees; no deductibles; and no annual maximums. Preventive services are offered at a copay; discounted fees apply for all other dental services.

Pediatric and Cosmetic Dental (Dental HMO)—Individuals are eligible for Pediatric Dental Services up to the end of the month in which the member attains age 19. This plan provides benefits that comply with the Essential Health Benefits provisions under the Affordable Care Act (ACA). This plan includes coverage for more than 300 procedures and also offers discounted cosmetic services at predetermined, predictable fees with no deductibles. There is a copay for each office visit.

Adult Preventive and Cosmetic and Pediatric Dental and Cosmetic services are embedded in all medical plans.

Dental products are underwritten by Kaiser Foundation Health Plan of the Mid-Atlantic States, Inc., and administered by Dominion National, Inc. To learn more about Kaiser Permanente's dental offerings or to find a dentist, visit dominionnational.com/kaiser.

Enrollment requirements and cost contributions

The following summary provides some important details about enrollment requirements, employer contributions, participation, and payroll deductions to cover the cost of coverage. Refer to the *Group Agreement* for more information.

Company requirements for coverage

- ▶ Beginning January 1, 2015, any small group employer offering group health benefits must purchase or renew on DC Health Link (SHOP).
- ▶ The employer must have eligible employees who live or work within the service area of Kaiser Foundation Health Plan of the Mid-Atlantic States, Inc.
- ▶ The employer must either be headquartered in the District of Columbia or have a business location in the District of Columbia.
- ▶ The employer must offer coverage, at minimum, to all full-time employees working 30 hours per week or more.
- ▶ The employer must have a valid federal employer identification number (EIN).
- ▶ The employer cannot make eligible employees wait more than 90 days before coverage takes effect (that is, waiting periods may not exceed 90 days). Employers are allotted a one-month maximum for an employment-based orientation period for new hires.
- ▶ The employer must have at least one eligible employee and 50 or fewer full-time-equivalent employees to qualify as a small group.
- ▶ The employer must contribute at least 50 percent of the “employee only” monthly premium for the reference plan chosen by the employer under both an employer-choice and employee-choice offering.
- ▶ An employer/employee relationship must exist, and employees must be represented on the payroll as receiving a taxable wage or commission.
- ▶ Benefit changes can be made only at the contract anniversary date.
- ▶ The initial premium is determined based on actual enrollment at the effective contract date.
- ▶ Retirees are not considered eligible employees.
- ▶ Coverage for the group cannot exclude a class of employee. The only exception are groups with union employees covered by a union-negotiated Taft-Hartley contract.
- ▶ Company must be able to provide, if requested, a valid/current license to do business in the state in which they are applying.
- ▶ Groups not considered eligible include, but are not limited to:
 - Groups with more than 50 full-time-equivalent employees.

- Groups engaged exclusively in a seasonal business.
- Multiple employer welfare arrangements (MEWAs) and associations applying as a single employer group.
- Employee leasing groups/professional employment organizations (PEOs). PEOs may contract for coverage for their own employees, but not for anyone with a co-employment or leased arrangement.
- Groups composed of members as opposed to employees, such as societies and clubs.
- Groups for which there is no demonstrable employer/employee relationship.
- Groups that maintain only a post office box address.
- Groups that do not have a physical business location in the District of Columbia.

Participation requirements:

- ▶ Contributory groups—To participate in DC Health Link, employers must meet a minimum level participation of 2/3 of eligible employees. (This does not include employees with valid health waivers.)
 - There is one exception to the minimum participation requirement: Groups applying for coverage between November 15 and December 15 for a January 1 effective date are not required to meet minimum participation.

Employee and dependent eligibility:

- ▶ Employee/dependent age is based on the attained age as of the effective contract date.
- ▶ Eligible employees include full-time employees and, at the option of the employer, may include part-time employees.
- ▶ New employees hired after the effective date of the group must satisfy the group's defined waiting period (not to exceed 90 days) before becoming eligible to apply for coverage.
- ▶ Employees who become eligible for coverage outside of the initial or annual open enrollment period must apply for coverage within the specified timelines in the *Evidence of Coverage*. Employees may not enroll after that time, except during the group's annual open enrollment period or a qualifying special enrollment period.

- ▶ Board members are not considered eligible for coverage under an employer group plan unless these board members also act in a defined employment capacity for the account.
- ▶ All eligible employees must complete an enrollment form electing coverage, available through DC Health Link.
- ▶ In order for dependents to enroll, the eligible employee must enroll.
- ▶ Employees must live or work within Kaiser Permanente's defined service area or work for an employer whose situs is within Kaiser Permanente's defined service area.

Summary of Benefits and Coverage

To help you make an informed choice, we have *Summary of Benefits and Coverage (SBC)* documents available. SBCs summarize important information about our health coverage options in a standardized format so you can easily compare benefits and coverage offered by Kaiser Permanente with those of other carriers. SBC documents are available on our BusinessNet site at kp.org.

End notes

- ¹ Aon Hewitt Health Value Initiative™ benchmarking study—Kaiser Foundation Health Plan, Inc., Aon Hewitt, October 12, 2016. Results based on 2015 performance year and experience. Plans with absent clinical quality scores are included when calculating the averages.
- ² The private plan of Kaiser Foundation Health Plan of the Mid-Atlantic States, Inc., is rated 4.5 out of 5 among health insurance plans in NCQA's "Health Insurance Plan Ratings 2017-2018." Visit reportcard.ncqa.org for more information.
