

KAISER ON-THE-JOB® | OCCUPATIONAL HEALTH SERVICES

Strengthen your workforce health strategy

Strong workplace wellness programs can help prevent work-related illnesses and injuries. But there's more you can do to protect your business and your bottom line. By choosing Kaiser On-the-Job as your occupational health and safety partner, you can help reduce your injury care costs and improve productivity.

Faster return to work, greater cost savings

A yearlong study of Macy's injured employees in California showed how Kaiser On-the-Job is more effective than other providers at delivering results:*

12%

lower total costs
per claim

41%

lower direct medical
costs per claim

62%

fewer claims
involving litigation

We're able to achieve these outcomes because our integrated model allows us to easily share new information throughout our regions – and swiftly translate that data into best practices to further improve care.

Workers' compensation care for injuries or illnesses

All of your employees – even those who aren't Kaiser Permanente members – can get treatment for work-related injuries and illnesses through Kaiser On-the-Job. Our occupational health clinics are located in Kaiser Permanente medical offices, so it's easy for your employees to take care of all their health needs in one trip. Our centers provide:

- specialized care for work-related injuries
- clinic staff available by phone for you and your employees
- coordinated clinical services, including physical therapy, radiology, specialty care, and pharmacy

Call 503-813-4133 or toll free 800-813-2000 or visit kp.org/occupationalhealth/nw for more information on our occupational health and safety services.

"In addition to the superior customer service and access to caring doctors, [Kaiser On-the-Job] was 35 percent less expensive than the clinic we were using – both in reportable injuries and first aid that we are billed directly for. I cannot speak highly enough of the staff and the program."

– Marion Cronin, director of human resources for Chapman Convalescent Hospital, Riverside, California

Occupational health and safety services

In addition to helping you comply with state and federal worksite regulations, our services can help identify and prevent future health concerns – protecting the long-term health of your employees. Some programs are offered at our occupational health centers, and many can be made available at your place of business:

Medical evaluations	Screening/monitoring	Drug/alcohol testing
Preplacement/ post-offer examinations	Respiratory clearance	Urine specimen collection
Fitness-for-duty and return-to-work examinations	Asbestos evaluations	Breath alcohol testing
Department of Transportation/ DMV examinations	Lead surveillance	Immunizations
	Hazardous waste worker evaluations	Hepatitis A and B
	Firefighter examinations	Tetanus/diphtheria/ pertussis

Contact your Kaiser Permanente representative to learn more about our integrated approach to care. For information about occupational health services where you are, find us at:

A better approach to workforce health

All of our centers are located in medical offices, offering convenient access to specialists, pharmacy, X-rays, physical therapy, and more. Our physicians are board certified in occupational medicine or a related specialty.

Occupational medicine physicians, nurses, care coordinators, and physical therapists specialize in the unique challenges of work-related injuries. Plus, all caregivers have real-time access to the electronic medical records of Kaiser Permanente members – helping them make quick, well-informed decisions that improve outcomes.

“Macy’s Workers’ Compensation Claim Costs in California,” MedMetrics®, 2013. From July 1, 2012, to June 30, 2013, MedMetrics compared care provided by Kaiser On-the-Job health centers and physicians with the care offered by other programs used by California employees of Macy’s. Information may have changed since publication.
