

SMILE FOR TOTAL HEALTH

A guide to your dental benefits: Small Group Pediatric Dental HMO

The Pediatric Dental HMO plan emphasizes healthy smiles through the prevention and early detection of dental problems to avoid costly procedures in the future. The combination of predictable costs, no deductibles, and no annual maximums helps your child a state of good oral health without you facing the high cost of treatment typical of many dental plans.

Your plan provides coverage for more than 250 dental procedures through one of the largest dental provider networks¹ in the Mid-Atlantic area.² You have your choice of convenient dental offices where you can receive care.

For children—through the end of the month in which they turn 19—you pay a \$10 fee for each dental office visit. Preventive care services are provided at no charge, and may include:

- One oral evaluation every six months
- One routine cleaning every six months
- One bitewing X-ray every six months
- One topical fluoride treatment every six months

The preventive care procedures covered in this plan account for almost 90% of the most frequently performed services for children. Other listed dental services are available for the fixed fees shown on the fee schedule, which you pay directly to your provider as payment in full.

New member? Get started by choosing a dentist.

Visit dominionnational.com/kaiserdentists or call Dominion Member Services at **855-733-7524 (TTY 711)**, Monday through Friday, 7:30 a.m. to 6 p.m.

Save on restorative care

More extensive care (fillings, crowns, dentures, root canals, periodontal treatment, oral surgery, etc.) is provided at copayments lower than the usual and customary charges for these services. When covered, specialty care is covered at the listed copayment whether performed by a participating general dentist or participating specialist. For a complete list of covered benefits, exclusions, and limitations, and terms for the fixed fees, please refer to your *Evidence of Coverage*, or you can find your plan on dominionnational.com/kaiserdentists.

¹Dominion National, based on annual review of utilization data, network survey and analysis report, 3rd quarter 2018.

²Mid-Atlantic area includes Washington, DC, and parts of Maryland and Virginia.

Choose a dentist

You may select any general dentist from among our participating dental providers for your child. Each eligible family member may use a different participating dentist. For a list of participating dentists or information about a dentist, including office hours, directions, languages spoken, etc., visit dominionnational.com/kaiserdentists or call Dominion Member Services at **855-733-7524** (TTY **711**), Monday through Friday, 7:30 a.m. to 6 p.m. Specialty care is also available in many locations. To receive treatment from a participating specialist, ask your participating general dentist to arrange a referral. Services received from non-participating dentists are not covered.

Make appointments

After your effective date of coverage, you can make an appointment with a participating general dentist for your child. Make sure you bring your child's Kaiser Permanente medical ID card to the appointment. And you'll have virtually no paperwork or pre-existing condition exclusions to worry about.

Quality dental care

You can be confident that your child's dentist was carefully selected to offer quality care. All participating dentists go through a strict quality assurance program developed in accordance with the National Association of Dental Plans' recommendations. This process confirms that each dentist has the required credentials and has passed a thorough on-site office evaluation.

Dedicated customer service

Quality customer service is an important part of any dental plan. Dominion Member Services Specialists are available Monday through Friday, 7:30 a.m. to 6 p.m., to answer questions about coverage or to help you find a participating dentist. Dominion's interactive voice response system is available 24 hours a day for information about participating dental providers in your area or to help you select a dental provider. The most up-to-date list of participating dental providers can be found online.
